REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present claims are deemed allowable over the prior art of record in that the latter neither anticipate nor render obvious the combination of a base resin with a reinforced polyolefin composition comprising polyamide fibers, silane coupling agent and silica particles. The closest prior art, WO '973, discloses the use of a phyllosilicate material which is different from the silica particles required by the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
